

Totem eco is made of three parts:
the sheet to print/shape and
the upper and lower closing lids

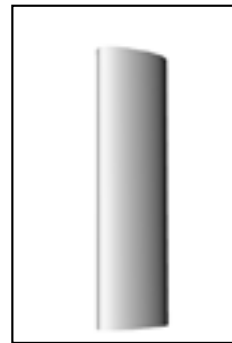

PRE-ASSEMBLY (Pre-assembly instructions are necessary only for those clients who bought a blank Totem Eco)

Please fold the side tabs to the inside of the sheet and apply dual-sided tape as shown

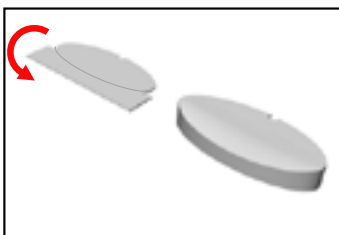

Fold at the vertical crease of the sheet

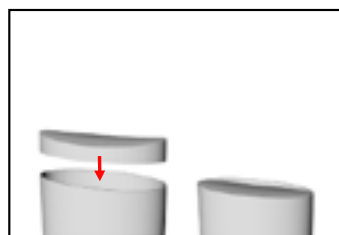

Assemble totem thanks to the applied dual-sided tape.

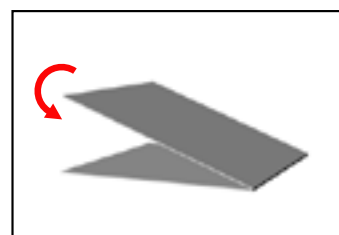

ASSEMBLY/DISASSEMBLY

Please fold the rectangular piece as shown, to make the closing lids.

Please insert lids inside the totem (at top and at bottom)
Once inserted, lids work as both closure and shim pieces for the maintenance of shape.

To dismantle the totem, remove lids and bend at the horizontal crease of sheet.
